

## UX Design Intern

### In short :

- **Organization:** Just One Giant Lab ([JOGL](#)), an open and participatory, non-profit research and innovation laboratory.
- **Position:** An advisor and analyst on UX and design of the JOGL platform
- **When:** As soon as possible - 4 months and more
- **Where:** Remotely and/or at the JOGL offices, within the Centre de Recherche Interdisciplinaire, Paris 4th arrondissement, metro St Paul/Bastille.
- **Contract:** Full-time or part-time internship according to availability, remuneration to see according to profile

### Context :

**Just One Giant Lab (JOGL)** is the first research and innovation laboratory operating as a distributed, open and massive mobilisation platform for collaborative task solving. JOGL helps humanity to sync onto fixing our most urgent and important problems using Open Science, Responsible Innovation and Continuous Learning. JOGL partners with academic labs, companies, startups, foundations, NGOs and public services to create participatory research programs for understanding and solving Health, Environmental, Social and Humanitarian issues.

### Description and missions:

**The JOGL platform needs UX improvement.** This internship would be taken under the leadership of current developers with some knowledge in UX, and as part of a wider team creating the platform.

Some of the **key responsibilities** include:

- Assist with the UX design of the platform through community input and testing
- Gather data based on users using the platform
- Develop user stories and UX flows
- Identifying current problems and possible solutions
- Work closely with developers to find what's possible to do

Being an intern at JOGL comes with opportunities for growth, professional development, and leadership. You will be joining a global team composed of the organization's co-founders, a development team, communications team, and program managers. Visit [our website](#) for a full team description. At JOGL, skills and motivation are worth more than diplomas!

### You are:

- **Motivated!** You like the idea of contributing to the emergence of a new model of participatory research and innovation.
- **Autonomous!** You have organisational skills and you like to take initiatives. You have the ability to choose which is the best way to develop a feature.
- **Curious!** You are innovative, creative and constantly looking for ways to improve your work.
- **Organized!** Document yourself and share your thoughts with the group!
- **Efficient!** You are able to work in a timely manner, with short deadlines and imperatives.
- **Problem Solver!** You enjoy finding solutions and resolving issues quickly and efficiently.
- **Collaborative!** You are able to work in a team and are able to communicate with people without technical knowledge.

**Bottom line :** **Be ready for an extraordinary adventure!** You must be motivated to get to the heart of the matter, you will be active to the rhythm of a changing world. Valuable experience with a young team of digital culture, tech for good, open data-big data and open science
